

**Upstream Elevation  
of Outlet Tower**

**Elevation of Culvert Inlet**

**Section Showing Scour Outlet  
Valve Headstock**

**Notes**

1. All levels are relative to the Ordinance Datum and are given in metres
2. Level measurements are indicated where depth soundings have been collected
3. Depth soundings have been converted to levels based on water level of 317m AOD
4. Dam floor profile is based on spline fit between depth soundings
5. Distances are based on sonar measurements
